

PLEASE CAN WE HAVE YOUR CONSTRUCTIVE COMMENTS ON THE LAYOUT AND FOOTPRINT OF THE PROPOSED VILLAGE HALL AS SEEN ON THE DETAILED ELEVATION AND LAYOUT PLANS.

THESE PLANS HAVE BEEN DEVELOPED BY THE VILLAGE HALL COMMITTEE IN CONJUNCTION WITH THE PARISH COUNCIL, A CHARTERED ARCHITECT, AND THE COMMENTS PROVIDED BY PARISH RESIDENTS IN THE PREVIOUS NEIGHBOURHOOD PLAN AND COMMUNITY SURVEYS

- Long overdue we need more activities in the Parish
- Disappointed in the length of time we have to wait for everything but mostly a café like Norton
- Very ambitious plan. I hope the hall can be open whilst alterations are made
- Very ambitious, I hope it comes off
- All looks very up to date. I hope it will be energy efficient and have bike racks
- Believe it when I see it. I hope it will be energy efficient and have bike racks
- Very happy to see a relevant village hall for a growing village, well done
- Will be great to see people from the village attend more things
- Good
- What will happen to the charity coffee mornings when the Café opens
- Looks great ,will at least one of the halls be laid out with courts eg. Badminton
- Chairs too heavy , we need a coffee café
- All looks great ,would be good for residents of the village
- Very smart a real benefit for the village
- Looks good but depends on what happens to it, more activities for younger children
- More lighting down the entrance track
- Signage from the road
- Overall look of the building looks great modern and appealing
- One hall needs neutral and more elegant to appeal to the social media focused clientele that would want that wow factor photo. Think weddings or major milestone events that want professional photography
- Parking spaces need to have bollard markers to prevent joyriding. So parking spaces have borders bumps (see Wesley front carpark)
- Great idea. The range of usage or village groups will be dependant
- Can one hall have a large screen for major uk televised events (jubilee/world cup)
- Cycle storage parking
- CCTV?
- Terrific idea thankyou, looking forward to using the facilities
- Looks good should provide a great multifunctional venue
- Bike racks please
- Loving the flow of spaces-more things going on in separate areas. I'm keen for lower ioperating coststhrough recyc;led waterbetter insulationand solar power and lowest energy lights
- It all looks brilliant ,cant wait for it to be built
- Better signage to the village hall from main road, sinage to entrances as most people don't realise the entrance to the small hall is round the side
- Improved lighting on entrance road and carpark
- Proposed hall no.3 could potentiall be usefull for craft workshops eg day long use for machine and hand sewing. Good access to electric socket possible in floor with sturdy tablesand good natural and aux lighting
- More car parking, disabled access for wheelchairs, buggies, wheeled carriers
- Electric charging points
- Looks modern and will provide a range of community activities as well as supporting those activities that are already in place(charity coffee morning, pilaties
- Long overdue! Key will be having a well organised group of people in place to manage the facilitieson an ongoing basis. All building young and old need care and attention and a budget of the right magnitude
- Delighted with the range of spacesfor differing uses. How long have we neededa café / dropin space - hugely valuable and I'll come.
- An externally accessible toilet will be very useful for players and walkers Well done
